

Integral low height shop-around displays

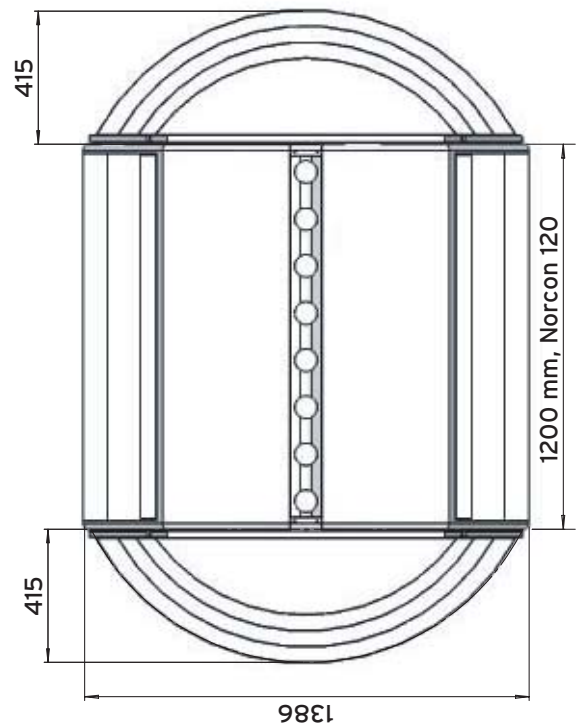

Norcon 'Shop-Around' Island

The perfect chilled/ambient display that can be shopped from all sides.

At 1300mm high the Norcon island creates a chilled/ ambient, shop-around display that is low enough to retain the perfect store eye-line, and can be placed almost anywhere in a modern convenience store to create a chilled/ambient island display.

The body of the Norcon island is refrigerated, offering chilled display from both sides of the island.

Both ends of the islands are made from ambient shelving, designed to integrate into the Norcon's unique design, perfect for meal-deals, and additional offering in any modern convenience store.
